The first Sister School Exchange with Bozeman High School

The city of Bozeman, Montana

with a population of 54,000 (Yomitan Village, by the way, has 42,000), is

known for its beautiful **Rocky Mountain** scenery and a wide range of outdoor activities. Furthermore,

Montana State University is located in the city, which adds to its appeal for both residents and visitors due to its mix of natural, cultural, and economic factors.

At the school, a police officer is on duty, and of course, he carries a handgun for emergencies.

BOZEMAN HIGH SCHOOL Bozeman High School

The support of the Alumni Association has made the sister school exchange possible!

Our school's exchange program with Bozeman High School, with which we established a sister school partnership in 2020, has finally been successful after a three-year delay. Even with COVID-19 difficulties, we had on line exchanges before. However, this time, a group of 14 students were able to participate in the exchange, and they gained valuable experiences by spending time with host families and teachers.

Yellowstone National Park

The park was established in 1872 and widely considered to be the first national park in the world. It is known hor its diverse ecosystems, geothermal features, and aboundant wildlife.

Impressive Auditorium with 700 seats!

We visited Montana State University, where there was a professor who served as the inspiration for the dinosaur expert Dr. Alan Grant, the main character in the movie 'Jurassic Park.

At the farewell party with the host family.
